Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 11, 16, 17, 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Joyce (U. S. Pat. 5,435,716).

Joyce shows an apparatus for combusting a fuel and air mixture within a combustion chamber comprising a combustion chamber 8, a exhaust flue 9, and a pressure relief void 15 same as claimed.

3. Claims 11, 16, 17, 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Joyce (U. S. Pat. 6,435,140).

Joyce shows an apparatus for combusting a fuel and air mixture within a combustion chamber comprising a combustion chamber 8, a exhaust flue 9, and a pressure relief void 15 same as claimed.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 18-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Joyce (U. S. Pat. 5,435,716 or 6,435,140) in view of Brandt et al. (U. S. Pat. 5,797,358).

The apparatus for combusting a fuel and air mixture of Joyce as above includes all that is recited in claims 18-21 except for a plurality of burners mounted in the combustion chamber. Brandt et al. teaches a concept of providing the water heater combustion chamber with a plurality of burners 120 same as claimed. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the apparatus of Joyce with a plurality of burners as taught by Brandt et al. in order to improve the heating efficiency. With regard to the claimed material of the burner surface, examiner takes official notice that it is well known in the burner art to form the burner surface by a plurality of ceramic fibers coated

with a silicon carbide material. Claim 21 is a product by process claim and that the product itself does not depend on the process of making it. Therefore, examiner did not patentable weight for the process of making limitation of "welded" in claim 21.

Allowable Subject Matter

7. Claims 12-15 are allowed.

Response to Arguments

8. Applicant's arguments filed 11/1/2004 have been fully considered but they are not persuasive. The Joyce patents do teach relieving the ignition pressure from the combustion chamber to the ambient environment. See Joyce ('716), col. 7, lines 50-56, col. 8, lines 1-5 and Joyce ('140), col. 6, lines 2-7).

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3749

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
